## MONTHLY BULLETIN OF THE LIBRARY.

VOL. 2, NO. 1, JANUARY, 1911.

The number immediately following an entry is the call number assigned to the book by this Library.

The number in small type at the right-hand margin is that which should be used in ordering printed cards from the Library of Congress. Correspondence in regard to these cards should be addressed to the Librarian of Congress, Washington, D. C.

## NOTES.

The November Monthly bulletin noted on page 272 the transfer of several valuable publications to this Library by the Library of the U. S. Geological survey. In the present bulletin three others are entered: Bulletin de la Société des sciences et arts agricoles et horticoles du Havre (p. 9), and numbers which were missing from the Library files of two publications of the Nederlandsche botanische vereeniging, Nederlandsch kruidkundig archief (p. 23), and Prodrumus florae batavae (p. 23).

A collection of old books on pigeons made by the late William Gardner Barton, of Salem, about thirty years ago, was recently purchased in so far as it did not duplicate books already contained in the Library. As these, together with some recent books just acquired, form a very considerable proportion of the Library's entire collection on pigeons, it seems opportune to include in the present bulletin a complete list of the works on this subject at present in the Library. The list is accordingly given below. Books previously in the Library are indicated by an asterisk.

#### PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 3.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

**A title-page and index for volume 1 of this bulletin will be issued later.**

#### PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 33.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

## PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note on page 61.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

## PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

#### PRINTED CARDS.

Printed cards for publications of the United States Department of Agriculture are prepared by the Library of the Department and formerly were also printed and distributed by this Library. Since 1906 the printing and distribution has been in the hands of the Library of Congress, which has also reprinted the cards issued by the Department of Agriculture previous to that date. Cards are therefore now in stock at the Library of Congress for all publications of the Department for which cards have ever been issued. For full information in regard to these cards see Bulletin 14 of the Card Section of the Library of Congress.

Printed cards for most of the accessions to the Library, except serials, may be obtained from the Library of Congress. (See note at beginning of bulletin.)

Index cards are prepared by this Library and printed by the Library of Congress for the following agricultural periodicals: *Landwirtschaftliche Jahrbücher*, *Die landwirtschaftlichen Versuchsstationen*, and *Annales de la science agronomique*. For full information see Bulletin 9 of the Card Section of the Library of Congress.

# MONTHLY BULLETIN OF THE LIBRARY.

VOL. 2, NO. 11, NOVEMBER, 1911.

The number immediately following an entry is the call number assigned to the book by this Library.

The number in small type at the right-hand margin is that which should be used in ordering printed cards from the Library of Congress. Correspondence in regard to these cards should be addressed to the Librarian of Congress, Washington, D. C.

## NOTES.

An addition to the library during the past month which is worthy of special notice is Lambert's Description of the genus *Pinus*, 1828-37 (p. 324), a sumptuous work in three large volumes, of which the first two are a reissue of the first edition, 1803-24, the third being supplementary. While partly superseded as a working text by more modern classifications of the conifers, on account of the accuracy and beauty of its colored plates by the greatest botanical artists of the period, it is likely long to retain the foremost place among monographs of *Pinus* and closely allied genera.

The first 19 volumes of the Australian agricultural journal, "Garden and field," which have just been acquired (p. 300) make the library set of this periodical practically complete. Attention is also called to the general index (p. 319) to the volumes of Pflüger's *archiv für die gesamte physiologie*, published since 1898. On page 317 is noted the second half of the general index to the *Zentralblatt für biochemie und biophysik* which consists of the two periodicals *Biochemisches centralblatt* and *Biophysikalisches centralblatt*. The first part of the index was noted on page 105 of this bulletin.

# MONTHLY BULLETIN OF THE LIBRARY.

VOL. 2, NO. 12, DECEMBER, 1911.

The number immediately following an entry is the call number assigned to the book by this Library.

The number in small type at the right-hand margin is that which should be used in ordering printed cards from the Library of Congress. Correspondence in regard to these cards should be addressed to the Librarian of Congress, Washington, D. C.

## NOTES.

Special attention is called to the set of photographs taken by E. H. Wilson in China for the Arnold arboretum (p. 358). The following quotation is taken from an article by Mr. Wilson referring to this expedition, published in the National geographic magazine, v. 22, no. 11 (Nov. 1911), p. 1003-1035: "These photographs . . . represent many of the interesting trees of central and western China, and give the first real idea of the scenery and general features of that part of China. To students of plant ecology they are of immense value."

Attention is also called to the acquisition by the Library of a set of *Notarisia* (p. 359).

The present bulletin notes general indexes to two sets of periodical publications: Transactions of the Canadian society of civil engineers (p. 364) and *Journal de la Société de statistique de Paris* (p. 364).
